2. Summary

The Trust's policy on Managing Declarations of Interest in the NHS stipulate that the register should be presented to the Audit Committee on an annual basis, and Board thereafter. Assurance on how the policy was being applied and the registers maintained was provided during 2020/21. This included specific assurance around the processes for notifying staff of their duties to make adequate declarations. This paper provides the final register for 2020/21 and assurance that the process is in place and being managed for the 2021/22 register, following consideration by Audit and Risk Committee on 18 May 2021.

2.1 Process

It is the responsibility of the Director of Corporate Governance to hold and manage the Register of Interests.

At the beginning of each year the Corporate Assurance Manager emails all key individuals who are required to submit annual declarations including those with delegated budgetary authority, staff grades of 8c or above (or equivalent), those with decision making responsibilities, and those who work in key areas such as facilities, IMST, procurement and pharmacy. Until declarations are received, reminders are sent. In addition, all governors are required to complete an annual declaration of interest.

There are intermittent articles in 'Connect' magazine reminding staff of the requirements for making declarations as well as further intermittent articles reminding staff of the rules for accepting and declaring gifts.

In addition to annual declarations, key decision making committees within the Trust require declarations of interest to be made at each meeting and administrators from Board committees are asked to forward any declarations so they can be added to the Register.

All these actions took place in relation to the 2020/21 Register and the process is commencing for 2021/22, but will remain ongoing throughout the year.

The Committee is asked to note that, other than Board members, the register does not record if staff leave a post during the year. Therefore there are staff members included on the register who are no longer with the organisation.

3. Next Steps

The Register of interests continues to be maintained and updated in line with the requirements of the Managing Conflicts of Interest in the NHS Policy. The register of interests for Board Members and Governors is available on the Trust's website.

In accordance with the policy, the Audit and Risk Committee and Board will continue to receive the register on an annual basis.

4. Required Actions

Board is asked to receive this paper and the assurance it provides that due process is being followed.

5. Monitoring Arrangements

It is the responsibility of the Director of Corporate Governance to ensure the Trust holds Registers of Interest in line with the requirements set out in the Trust's Constitution and the NHS Foundation Trust Code of Governance.
